

Update: Crown Commercial Service RM6244 – Purchase of Standard & Specialist Vehicles

[Purchase of Standard and Specialist Vehicles - CCS \(crowncommercial.gov.uk\)](https://www.crowncommercial.gov.uk)

All – CCS have updated me on the progress of the above framework. As you may be aware the team responsible for delivering the NFCC Emergency Response Vehicles (ERV) Framework worked with CCS to provide a route to market for specialist vehicles out of scope of our sector framework.

The planned award date for all Lots under the new framework was 2nd December 2022. For Lots 1-5, CCS plan to award by that date as planned. However, Lots 6-10 will now be awarded in early 2023 as CCS are still evaluating these lots. The lotting structure for RM6244 has been provided below for information:

**Lot 1** – Passenger Cars

**Lot 2** – Light and Medium Commercial Vehicles up to 7.5 Tonnes

**Lot 3** – Medium and Heavy Commercial Vehicles including Chassis and Cabs

**Lot 4** – Bluelight Cars and Motorcycles

**Lot 5** – Bluelight Light and Medium Commercial Vehicles up to 7.5 Tonnes

**Lot 6** – Refuse Collection and other Waste Management Vehicles

**Lot 7** – Minibuses (up to 17 Seats), including Accessible and Patient Transport

**Lot 8** – Buses and Coaches (over 17 Seats)

**Lot 9** – Trailers and Mobile Units, including Health Screening, Events and Mobile Office Units)

**Lot 10** – Conversion of Bespoke and Specialist Vehicles

The CCS Conversions DPS (RM3814) continues to support any conversion needs - [Vehicle Conversions DPS - CCS \(crowncommercial.gov.uk\)](https://www.crowncommercial.gov.uk)
